INDEX TO VOLUME 14

ABDOMINAL type of influenza, *May*, 1470
wall, adenomyoma of, *Nov.*, 695
Abscess of liver in chronic gonorrhea of rectum, *March*, 1207
perinephritic, *Nov.*, 723
Accuracy in physical examination, dangers of neglect, *July*, 3
Achlorhydria, *Jan.*, 1025
blood studies, *Jan.*, 1034
constipation in, *Jan.*, 1033
diarrhea in, *Jan.*, 1033
etiology, *Jan.*, 1028
review of 100 cases, *Jan.*, 1025
roentgenographic findings, *Jan.*, 1034
symptoms, *Jan.*, 1032
tests for, *Jan.*, 1026
treatment, *Jan.*, 1034
Achylia gastrica, *Jan.*, 1025
Acidity, gastric, in duodenitis, *Jan.*, 850
in relation to peptic ulcer, *Sept.*, 329
tests of, *Jan.*, 1026
Acriflavine, neutral, in treatment of acute bacteremia, *May*, 1433
Addison-Biermer anemia, *July*, 29
Addison's disease, Muirhead treatment, *July*, 192
of suprarenal glands, *July*, 187
Adenocarcinoma of uterus coexistent with fibromyoma and sarcoma, *Nov.*, 687
Adenoma of thyroid gland, *Sept.*, 387
Adenomyoma of abdominal wall, *Nov.*, 695
Adenosarcoma, embryonal, of kidney in child, *May*, 1494
Adiposity associated with retinitis pigmentosa, mental deficiency, and polydactylism, *Jan.*, 825
Adler's method of determining grade of megalocytosis, *July*, 34
Affective disorder in patient who has had many operations, *July*, 156
epilepsy, *Sept.*, 470
Akinetic epilepsy, *Sept.*, 469
Alcoholic cirrhosis, *July*, 92
Alcoholism, terminal bronchopneumonia in, with peripheral neuritis and hallucinatory psychosis, *July*, 257
Aleukemic leukemia, *March*, 1062
Allergic dermatitis, *May*, 1415
diseases, diagnosis and treatment, *March*, 1303
Amebic dysentery, chronic, chronic nonamebic colitis and, differentiation, *July*, 71
Amphibolous stage of typhoid fever, *July*, 19
Amyloid kidney, *Sept.*, 497, 501
Amyloidosis, diffuse, Congo-red test in, *Nov.*, 780
of unknown etiology, *Nov.*, 773
Amyotrophic lateral sclerosis, *July*, 114, 121
Anaphylactoid purpura, *Nov.*, 809
Anatomical structure and measurements as aid in synthetic diagnosis, *Sept.*, 445
Anemia, Addison-Biermer, *July*, 29
Biermer's, *July*, 29
atypical, *July*, 33
case history, *July*, 29
diagnosis, *July*, 30
differential diagnosis, *July*, 33
etiology, *July*, 37
liver extract by duodenal tube in, *July*, 36
megalocytosis in, tests for, *July* 34
pathogenesis, *July*, 37
treatment, *July*, 36
with subacute combined degeneration of cord, *July*, 227
in etiology of peptic ulcer, *Sept.*, 343
pernicious, *July*, 29
Cohn's liver fraction in, *Jan.*, 943
liver therapy, dosage, *Jan.*, 946
effects, *Jan.*, 948
chemical, *Jan.*, 948
clinical, *Jan.*, 950
hematologic, *Jan.*, 949
with subacute combined degeneration of cord, *July*, 227
secondary, in cirrhosis of liver, *July*, 99
liver therapy in, dosage, *Jan.*, 947

Anemia, secondary, profound, with splenomegaly, *July*, 47
Whipple's liver fraction in, *Jan.*, 943
with leukopenia, thrombocytopenia, and purpura in splenomegaly with liver enlargement and gastric hemorrhage, *July*, 57
Anergy, *May*, 1563
negative, *May*, 1565
positive, *May*, 1563
Aneurysm, thymoma and, differentiation, *Sept.*, 513
Angina pectoris following coronary occlusion, *March*, 1297
Aniline compounds, cancer due to, *May*, 1517
Anthracosis, chronic fibroid tuberculosis with, *July*, 199
Anticutines, *May*, 1563
Antitoxin, streptococcal, in septicemia, *May*, 1438
Aorta, coarctation of, in subacute bacterial endocarditis, *May*, 1347
Apelike hand, *July*, 111
Aran-Duchenne paralysis, *July*, 114
Arsenic, cancer due to, *May*, 1517
Arterial hypertension with marked arteriolar hypertrophy rather than arteriosclerosis, *July*, 219
Arteries, cerebral, embolism of, *Sept.*, 487
systemic, embolism of, *Sept.*, 479
Arteriolar hypertrophy with arterial hypertension and contracted kidney, *July*, 219
nephropathy, *July*, 237
Arteriosclerosis, cerebral hemorrhage with hemiplegia in senile paraparetic patient with, *July*, 247
coronary, *Sept.*, 316
Arteriosclerotic gangrene, embolism of systemic arteries and, differentiation, *Sept.*, 486
Arteriothrombosis due to operation on neck, left hemiplegia following upon, *July*, 253
Arteritis, rheumatic, *May*, 1541
Arthritis, acute infectious, *May*, 1441
purulent, in lobar pneumonia, *May*, 1364
chronic infectious, *May*, 1441, 1442
classification, *May*, 1441
deformans, *May*, 1442
focal infection and, *May*, 1442
gonorrheal, *May*, 1441, 1443
case report, *May*, 1447
clinical features, *May*, 1444
in childhood, *May*, 1397
treatment, *May*, 1445
Arthritis, gonorrheal, treatment, immobilization, *May*, 1446
physiotherapy, *May*, 1446
surgery, *May*, 1446
vaccines, *May*, 1445
in adults, mesenteric lymphadenitis as cause, *Nov.*, 605
Aschoff's mechanical theory of peptic ulcer, *Sept.*, 339
Ascites in Banti's syndrome, *July*, 65
in cirrhosis of liver, *July*, 99
treatment, *July*, 105
Aspiration, joint, in gonorrheal arthritis, *May*, 1446
Asthenic habitus in peptic ulcer, *Sept.*, 349
Asthenics, constitutional, without hypothyroidism, low basal metabolic rates in, *May*, 1377
Asthma, *March*, 1303
allergic, and functional gastric symptoms with low basal metabolic rate and autonomic dysfunction, *May*, 1383
bronchial, *May*, 1501
cardiac, *Nov.*, 737
treatment, *March*, 1137
differential diagnosis, *Nov.*, 729
dyspnea in, and in other conditions, differentiation, *Nov.*, 731
extrinsic, *March*, 1304
intrinsic, *March*, 1304
symptoms, *Nov.*, 729
thymic, *Nov.*, 735
Asthmatic state, clinical analysis, *May*, 1501
Athlete's foot, *May*, 1411
Atrophic myotonia, *July*, 129
Atrophy, acute yellow, of liver with beginning toxic cirrhosis, *July*, 233
muscular, progressive, *July*, 109
Auricular fibrillation combined with toxic hyperthyroidism and decompensation, *March*, 1185

BACILLARY dysentery, chronic nonamebic colitis and, differentiation, *July*, 72
Bacillus, colon, problem of, *Jan.*, 855.
See also *Colon bacillus*.
enteritidis in typhoid fever, *July*, 16
Nocard's, in psittacosis, *Jan.*, 818
pyocyaneus infection, *March*, 1243
Bacteremia, acute, *May*, 1453
due to pneumococcus, *May*, 1456
to Streptococcus hemolyticus, *May*, 1460, 1461
to Streptococcus viridans, *May*, 1457

Bacteremia, acute, mercurochrome in, *May*, 1436
neutral acriflavine in, *May*, 1433
streptococcal antitoxin in, *May*, 1438
treatment, *May*, 1433
whole blood transfusions in, *May*, 1435
pneumococcic, *May*, 1456
Bacterial endocarditis, subacute, *May*, 1335
relation of rheumatic fever and focal infection to, *March*, 1221
infection of hands simulating ringworm, *March*, 1173
intestinal infections, acute, *May*, 1469
pneumonic infection, acute, *May*, 1463
Bacteriological studies in tuberculosis, implications of, *Sept.*, 289
theory of etiology of peptic ulcer, *Sept.*, 337
Balint's phenomenon in peptic ulcer, *Sept.*, 334
Banti's syndrome, *July*, 57
coarsely nodular cirrhosis of liver and, differentiation, *July*, 103
profound secondary anemia with, *July*, 47
Bardet's syndrome, *Jan.*, 830
Basal metabolic rates, low, in constitutional asthenics without hypothyroidism, *May*, 1377
Basedow's disease, *Sept.*, 384
Bessau's tuberculin test, *May*, 1565
Biedl-Laurence syndrome, *Jan.*, 825
Biermer's anemia, *July*, 29. See also *Anemia, Biermer's.*
Biliary operations, obesity after, *Jan.*, 1048
Biological studies in tuberculosis, *Sept.*, 286
Bird leg, *July*, 114
Birthmarks, telangiectatic, in newborn, *May*, 1524
Bladder dysfunction, neurogenic, in child, *May*, 1487
floor, redundancy of, in child, *May*, 1488
hypertonic, and ureteral spasm in child, *May*, 1490
Blastomycosis, systemic, *Nov.*, 651
coccidioidal granuloma and, differentiation, *Nov.*, 659
scrofuloderma and, differentiation, *Nov.*, 660
torulosis and, differentiation, *Nov.*, 660
Bloch's theory of eczema, *May*, 1407
Block, bundle-branch, clinical data, *Jan.*, 893
diagnosis, *Jan.*, 885
relation to other cardiac disturbances, *Jan.*, 885
Blood changes in tuberculosis, *Sept.*, 280
clotting disturbances in newborn, *May*, 1526
factors essential for, *July*, 62
function in newborn, *May*, 1530
count, peripheral, in tuberculosis, value of, *Sept.*, 280
culture in typhoid fever, *July*, 15, 17
stream infection, *May*, 1438, 1453
supply of stomach in relation to peptic ulcer, *Sept.*, 356
transfusion in streptococcic septicemia, *May*, 1435
vessels of stomach, peptic ulcer in relation to, *Sept.*, 322
whole, of adult, intramuscular injection, as prophylactic against measles, *May*, 1475
Bone, tumors of, benign giant-cell, differentiation by irradiation, *Nov.*, 632
malignant, differentiation by irradiation, *Nov.*, 633
Brain, perithelioma of, *Sept.*, 451
histopathology, *Sept.*, 453
spongioblastoma and, differentiation, *Sept.*, 454
tumor of, cerebral fever due to, *May*, 1420
chronic encephalitis and, differentiation, *July*, 143
Bromsulphalein test of liver function, *Jan.*, 957
Bronchial asthma, *March*, 1303; *May*, 1501
Bronchitis, acute, simulating asthma, *Nov.*, 734
Bronchopneumonia in children, *Sept.*, 411
terminal, in obese atherosclerotic drunkard, with peripheral neuritis and hallucinatory psychosis, *July*, 257
in thyreo-intoxication with necrosis and atrophy of liver, damage to heart muscle and kidneys, *July*, 261
Bronchus, diseases of, simulating asthma, *Nov.*, 734
foreign bodies in, overlooked at bronchoscopic examination, *Nov.*, 585

Buccal vaccination in colon bacillus infection, *Jan.*, 866
Buerger's disease, *March*, 1177
Bulbar form of muscular atrophy, *July*, 114
Bundle-branch block, clinical data, *Jan.*, 893
diagnosis, *Jan.*, 885
relation to other cardiac disturbances, *Jan.*, 885
Buttonhole mitral stenosis, *May*, 1311, 1324

CANCER. See *Carcinoma*.
Capillary toxicosis, hemorrhagic, *Nov.*, 809
Carbohydrate function of liver, tests of, *Jan.*, 958
Carcinoma, aniline compounds as cause, *May*, 1517
arsenic as cause, *May*, 1517
chemicals as cause, *May*, 1513
chimney-sweeps', *May*, 1514
frost-bite as cause, *May*, 1512
heat as cause, *May*, 1511
industrial, *May*, 1507
forms of irritation causing, *May*, 1509
histology, *May*, 1518
localization, *May*, 1508
long interval before onset, *May*, 1508
story of, *May*, 1509
kangri, *May*, 1509, 1511
light as cause, *May*, 1512
mule-spinners', *May*, 1516
of colon, *March*, 1085, 1087
chronic nonamebic colitis and, differentiation, *July*, 73
relation of polyposis to, *July*, 79
thymoma and, differentiation, *Sept.*, 513
of prostate gland, with early and extensive metastasis to cervical, axillary, and inguinal lymph nodes, *Nov.*, 573
of stomach, early diagnosis, *March*, 1195
gastric content in, significance of analysis, *Nov.*, 557
ulcer and, independent occurrence of, *Jan.*, 869
purpura hemorrhagica and, coincidence of, *May*, 1533
of suprarenal cortex, genito-suprarenal syndrome due to, *July*, 269
of thyroid gland, *Sept.*, 389
paraffin as cause, *May*, 1515
pitch as cause, *May*, 1516
Carcinoma, radium as cause, *May*, 1512
repeated trauma as cause, *May*, 1510
roentgen rays as cause, *May*, 1512
scar, *May*, 1511
single trauma as cause, *May*, 1509
soot as cause, *May*, 1514
sulphuric acid as cause, *May*, 1518
tar as cause, *May*, 1516
Cardiac asthma, *Nov.*, 737
treatment, *March*, 1137
disease, relation of bundle-branch block to, *Jan.*, 885
infarction, extensive, with electrocardiographic studies and necropsy findings, *March*, 1097
insufficiency, digitalis in, *March*, 1133
diuretics in, *March*, 1135
treatment, *March*, 1131
Cardiovascular disturbances in prostatic obstruction, *Nov.*, 763
Caronia's vaccine in typhoid fever, *July*, 25
Carotid gland, tumor of, *July*, 254
pulsation, right-sided, in hypertension, *Jan.*, 989
Catalepsy, *Sept.*, 474
Cataplexia, *Sept.*, 473
Catarrhal theory of peptic ulcer, *Sept.*, 338
Cecil's classification of arthritis, *May*, 1441
Cecum, mobile, *Jan.*, 1039
tuberculosis of, *March*, 1090
Cephalhematoma, external, in newborn, *May*, 1524
internal, in newborn, *May*, 1524
Cerebral arteries, embolism of, *Sept.*, 487
fever, *May*, 1419
hemorrhage with hemiplegia in senile paraparetic patient with arteriosclerosis, *July*, 247
Cerebrospinal syphilis, chronic encephalitis and, differentiation, *July*, 143
Cheiropompholyx, *May*, 1411
Chemical theories of peptic ulcer, *Sept.*, 329
Chemicals, cancer due to, *May*, 1513
Chemico-biological studies in tuberculosis, *Sept.*, 286
Cheyne-Stokes breathing in uremia, *March*, 1239
Children, acute infections in, *May*, 1475
diseases of, object lessons in, *Sept.*, 535

Children, gonorrheal arthritis in, *May*, 1392
complications in, *May*, 1387
hydrocele and epididymitis in, *May*, 1392
ophthalmia in, *May*, 1387
peribronchial infiltration in, *Sept.*, 411
purpuras in, *March*, 1073
pyuria in, *May*, 1483
tuberculosis of kidney in, *Sept.*, 365
urinary tract abnormalities in, *May*, 1483
Chimney-sweeps' cancer, *May*, 1514
Chronic invalid reaction, *July*, 161
Circulatory system, diseases of, simulating asthma, *Nov.*, 737
Cirrhosis, alcoholic, *July*, 92
Laënnec's, *July*, 92
of liver, coarsely nodular, Banti's syndrome and, differentiation, *July*, 103
with ascites, *July*, 99
treatment, *July*, 105
portal, of liver, *July*, 87
etiology, *July*, 91
treatment, 96
toxic, of liver in acute yellow atrophy, *July*, 233
Claquement d'ouverture de la mitrale, *Jan.*, 904
Clasmatocyte, *Sept.*, 282
Claudication, intermittent, in extremities with pulsating vessels, *Nov.*, 783
Clotting disturbances in newborn, *May*, 1526
function in newborn, *May*, 1530
Coagulation of blood, factors essential for, *July*, 62
Coarctation of aorta in subacute bacterial endocarditis, *May*, 1347
Coccidioidal granuloma, systemic blastomycosis and, differentiation, *Nov.*, 659
Cohnheim and Virchow's vascular theory of peptic ulcer, *Sept.*, 320
Cohn's pernicious anemia liver fraction, *Jan.*, 943
Colitis, chronic nonamebic, bacillary dysentery and, differentiation, *July*, 72
carcinoma of colon and, differentiation, *July*, 73
chronic amebic dysentery and, differentiation, *July*, 71
treatment, *July*, 74
ulcerative, *July*, 73
associated with splenomegaly, *Nov.*, 591
Colitis, fermentative, *March*, 1161
Strasburger test, *March*, 1166
Colloid goiter, recurrence of, after resection, *July*, 171
Colon bacillus as source of pathology, *Jan.*, 855
buccal vaccination, *Jan.*, 866
localization of, *Jan.*, 860
problem of, *Jan.*, 855
production of immunity to, *Jan.*, 863
toxicity of strains from various sources, *Jan.*, 859
vaccine, experimentation with, *Jan.*, 863
carcinoma of, *March*, 1085, 1087
chronic nonamebic colitis and, differentiation, *July*, 73
relation of polyposis to, *July*, 79
diverticula of, *March*, 1091
polyposis of, *July*, 77
autopsy findings, *July*, 78
clinical picture, *July*, 77
etiology, *July*, 79
heredofamilial occurrence, *July*, 77
relation to carcinoma, *July*, 79
x-ray therapy, *July*, 82
spastic irritable, *March*, 1092
Concussion syndrome, postcerebral, in chronic alcoholic, *March*, 1291
Congo-red test in amyloidosis, *Nov.*, 780
Constipation in achlorhydria, *Jan.*, 1033
in hypothyroidism, *Jan.*, 1021
Constitutional asthenics without hypothyroidism, low basal metabolic rates in, *May*, 1377
theory of peptic ulcer, *Sept.*, 344
Contact test in eczema, *May*, 1409
Conversion hysteria following industrial injury, *March*, 1292
tarde following eight months after head injury, *March*, 1294
Convulsions complicating pertussis, *March*, 1233
in childhood, *Sept.*, 540
Coordinated epilepsy, *Sept.*, 469
Coronary arteries, sclerosis of, *March*, 1211
arteriosclerosis, *Sept.*, 316
occlusion, *Sept.*, 307, 316; *March*, 1181
ectopic rhythms as problem in diagnosis, *Sept.*, 527
followed by angina pectoris, *March*, 1297
pain in rheumatic fever, *May*, 1544
sclerosis, *Sept.*, 308, 312, 313

Coronary thrombosis, *March*, 1097
Cortex, suprarenal, malignant tumor of, genito-suprarenal syndrome due to, *July*, 269
Cough due to mediastinal pressure, *Jan.*, 1006
Credé's treatment of gonorrheal ophthalmia, *May*, 1390, 1392
Cretinism, treatment, *Sept.*, 381
Cryptococcosis epidermica, *March*, 1171
Cutaneous lesions, emotions and, relation between, *Nov.*, 645
Cyst, mesenteric, with pressure on renal pelvis in child, *May*, 1489
Cystic tumor of medulla of suprarenal gland, *July*, 265
Cystoscopy, analysis of mistaken symptomatic diagnoses corrected by, *Jan.*, 915
contra-indications, *Jan.*, 914
imperative need for, in urogenital diagnoses of general medicine, *Jan.*, 909

DARLING's histoplasmosis, *Nov.*, 660
Decompensation combined with auricular fibrillation and toxic hyperthyroidism, *March*, 1185
in mitral stenosis, *May*, 1321
Deficiency diseases in infancy, *Sept.*, 537
Dental infections, recurrent, urogenital disease and, relation between, *Jan.*, 917
Dermatitis, allergic, *May*, 1415
Mah Jong, *May*, 1415
seborrheic, *March*, 1171
venenata, *May*, 1404
eczema and, relation between, *May*, 1404
Dermatologic diseases, *March*, 1139
relation of emotions to, *Nov.*, 645
tuberculin in diagnosis, *May*, 1555
Dermatophids, *March*, 1170
Dermatophytid, palmar, complicating perianal tinea, *March*, 1172
Dermatophytosis, *May*, 1412
Diabetes, control of, in hemochromatosis, *July*, 177
galactase tolerance test in, *Jan.*, 959
mellitus with thrombo-angiitis obliterans, *Nov.*, 581
mild and severe, *Nov.*, 799, 801
Diagnosis, synthetic, *Sept.*, 439
anatomical structure and measurements, *Sept.*, 445
environment, regimen, and conduct in, *Sept.*, 448
Diagnosis, synthetic, health examination in, *Sept.*, 439
history in, *Sept.*, 449
physiologic assay, *Sept.*, 446
Diaphragmatic hernia, *March*, 1123
Diarrhea in achlorhydria, *Jan.*, 1033
in adults, mesenteric lymphadenitis as cause, *Nov.*, 605
Diastolic snap, early, *Jan.*, 904
Diet as cause of peptic ulcer, *Sept.*, 341, 342
in peptic ulcer, *May*, 1371
in typhoid fever, *July*, 23
Diffraction method for obtaining degree of megalocytosis, *July*, 34
Digestive ferments in etiology of peptic ulcer, *Sept.*, 334
Digitalis in cardiac insufficiency, *March*, 1133
Diphtheria in newborn, *May*, 1525
Diuretics in cardiac insufficiency, *March*, 1135
Diverticula of colon, *March*, 1091, 1098
of duodenum, *March*, 1197
pulsion, of esophagus, *March*, 1193
traction, of esophagus, *March*, 1193
Dreamy state in epilepsy, *Sept.*, 471
Duchenne's pseudohypertrophic paralysis, *July*, 113
Duodenal cap in duodenitis, *Jan.*, 846
drainage in duodenitis, *Jan.*, 850
lesions, *March*, 1197
ulcer, bleeding, edema complicating, *Nov.*, 746, 749
with perforation and obstruction, preoperative complications, *Nov.*, 745
submucous, *Jan.*, 841
Duodenitis, *Jan.*, 841
associated with gallbladder disease, *Jan.*, 852
clinical picture, *Jan.*, 848
duodenal cap in, *Jan.*, 846
drainage in, *Jan.*, 850
gastric acidity in, *Jan.*, 850
physical examination, *Jan.*, 850
pylorospasm in, *Jan.*, 846
response to ulcer régime, *Jan.*, 851
review of literature, *Jan.*, 841
of 26 cases, *Jan.*, 841
roentgenological observations, *Jan.*, 845
symptoms, *Jan.*, 848
Duroziez murmur in mitral stenosis, *May*, 1317
Dye excretion tests of liver function, *July*, 93
Dysentery, amebic, chronic, chronic nonamebic colitis and, differentiation, *July*, 71

Dysentery, bacillary, chronic nonamebic colitis and, differentiation, *July*, 72
Dysidrosis, *May*, 1411
relation of emotions to, *Nov.*, 646
Dysphagia due to mediastinal pressure, *Jan.*, 1007
Dyspnea due to mediastinal pressure, *Jan.*, 1006
hysterical, *Nov.*, 739
in asthma and in other conditions, differentiation, *Nov.*, 731
in uremia, *March*, 1239
Dystrophia adiposogenitalis, *Nov.*, 703
Dystrophy, muscular, progressive, *July*, 109
thyroneural, *Sept.*, 429, 433

EBER-SAHLI, tuberculopyrine of, *May*, 1564
Ectopic rhythms in diagnosis of acute coronary occlusion, *Sept.*, 527
Eczema, Bloch's theory of, *May*, 1407
contact or patch test, *May*, 1409
definitions of, *May*, 1408
dermatitis venenata and, relation between, *May*, 1404
desensitization in, *May*, 1417
eczematogens in, *May*, 1407
epidermophytosis and, *May*, 1411, 1412
etiology, *May*, 1404
exogenous or endogenous origin, *May*, 1407
fungous, *May*, 1411
idiosyncratogen in, *May*, 1408
infantile, *May*, 1416
Japanese lacquer as cause, *May*, 1415
nature of, *May*, 1403
predisposition in, *May*, 1414
substances causing, *May*, 1410
susceptibility to, *May*, 1415
tests in, *May*, 1417
trichophytin test, *May*, 1413
Eczematics, *May*, 1407
Eczematogens, *May*, 1407
Eczematoid ringworm, *March*, 1169
Edema in bleeding duodenal ulcer, *Nov.*, 746, 749
pulmonary, acute, treatment, *March*, 1137
Electrocardiographic localization of myocardial infarcts, *Nov.*, 671
Embolism of cerebral arteries, *Sept.*, 487
of systemic arteries, *Sept.*, 479
analysis of cases, *Sept.*, 488
arteriosclerotic gangrene and, differentiation, *Sept.*, 486
Embolism of systemic arteries, venous thrombosis and, differentiation, *Sept.*, 486
Emotions, cutaneous lesions and, relation between, *Nov.*, 645
Emphysema, erythrocytosis due to, *Jan.*, 935
pulmonary, simulating asthma, *Nov.*, 736
Encephalitis, epidemic chronic, bizarre symptoms simulating, *July*, 149
brain tumor and, differentiation, *July*, 143
cerebrospinal syphilis and, differentiation, *July*, 143
hysterical phenomena and, differentiation, *July*, 142
multiple sclerosis and, differentiation, *July*, 143
Parkinson's disease and, differentiation, *July*, 140, 144
Parkinson-like syndromes in, diagnosis and treatment, *July*, 131
pathologic anatomical changes in, *July*, 146
psychasthenic tics and, differentiation, *July*, 142
Schilder's periaxial encephalitis and, differentiation, *July*, 144
treatment, *July*, 145
respiratory disturbance after, simulating asthma, *Nov.*, 739
Schilder's periaxial, chronic epidemic encephalitis and, differentiation, *July*, 144
Encephalomyelopathy, disseminated, with tonic spasms simulating tetanus, strychnine poisoning, or decerebrate rigidity, *July*, 149
Endemic typhoid fever, *July*, 26
Endocarditis due to Streptococcus viridans, *May*, 1335
in childhood, *Sept.*, 548
pneumococcus, in lobar pneumonia, *May*, 1359
subacute bacterial, *May*, 1335
chronic diffuse glomerulonephritis in, *May*, 1355
coarctation of aorta in, *May*, 1347
relation of rheumatic fever and focal infection to, *March*, 1221
Endocrinopathies, *Sept.*, 425
in cirrhosis of liver, *July*, 99
Endothelioma of neck, left hemiplegia following upon arteriothrombosis due to operation for, *July*, 253

Environmental elements in synthetic diagnosis, *Sept.*, 448
Epidemic encephalitis, chronic, Parkinson-like syndromes in, *July*, 131
Epidermophyton, Kauffmann-Wolff, *May*, 1412
Epidermophytosis, *March*, 1169; *May*, 1412
Epididymitis, acute gonorrheal, in child, *May*, 1392
Epigastric hernia in etiology of peptic ulcer, *Sept.*, 342
Epilepsia partialis continua, *Sept.*, 468
procursiva, *Sept.*, 469
rotatoria, *Sept.*, 469
Epilepsy, *Sept.*, 463
affective, *Sept.*, 470
akinetic, *Sept.*, 469
coordinated, *Sept.*, 469
dreamy state in, *Sep .*, 471
explosive theory, *Sept.*, 467
inhibition and, *Sept.*, 463
inhibitory, *Sept.*, 469
irritation theory, *Sept.*, 466
lesser known types, *Sept.*, 467
myoclonic, *Sept.*, 468
neural mechanisms, *Sept.*, 463
reflex, *Sept.*, 470
release theory, *Sept.*, 464
sensory, *Sept.*, 470
variants, *Sept.*, 470
short-circuit theory, *Sept.*, 465
tonic, *Sept.*, 469
visceral variants, *Sept.*, 471
Epileptic discharge, *Sept.*, 463
Epithelioma of lip, *March*, 1148
Erb's juvenile myopathy, *July*, 114
Erysipeloid, *March*, 1142
Erythema hemorrhagica, *Nov.*, 809
induratum, tuberculin test in, *May*, 1561
Erythrocytosis due to emphysema, *Jan.*, 935
Esophagus, fistula between tracheobronchial tree and, *Nov.*, 715
pulsion diverticulum of, *March*, 1193
traction diverticulum of, *March*, 1193
ulceration of, *Nov.*, 567
Eve's diffraction method for obtaining degree of megalocytosis, *July*, 34
halometer, *July*, 35
Examination, health, as aid in synthetic diagnosis, *Sept.*, 439
periodic, *July*, 8
physical, accuracy in, dangers in neglect, *July*, 3
Exophthalmic goiter, *Sept.*, 382, 384
with necrosis and atrophy of liver, *July*, 261
Explosive theory of epilepsy, *Sept.*, 467
Extremities, intermittent claudication in, with pulsating vessels, *Nov.*, 783

FACE, myopathic, *July*, 113
Facioscapulohumeral myopathy, *July*, 113
Familial obesity, *Nov.*, 703
tendency in peptic ulcer, *Sept.*, 355
Farmers' skin, *May*, 1512
Fastigium in typhoid fever, *July*, 18
Fecal mass, large, causing pelvo-abdominal tumor, *March*, 1251
Ferment tests of gastric acidity, *Jan.*, 1026
Fermentative colitis, *March*, 1161
Strasburger test, *March*, 1166
Ferments, digestive, in etiology of peptic ulcer, *Sept.*, 334
Fever, cerebral, *May*, 1404
Fibrillary twitching, *July*, 111
Fibromyoma of uterus coexistent with sarcoma and adenocarcinoma, *Nov.*, 687, 691
Fistula between esophagus and tracheobronchial tree, *Nov.*, 715
Fits, uncinate, *Sept.*, 470
Fixation neurosis following industrial injury, *March*, 1283
malingering and, differentiation, *March*, 1286
where compensation is not a factor, *March*, 1287
Focal infection, relation of rheumatic fever and subacute bacterial endocarditis to, *March*, 1221
Foot, athlete's, *May*, 1411
ringworm of, *March*, 1171
Foreign bodies in bronchus overlooked at bronchoscopic examination, *Nov.*, 585
Friedländer bacillus pneumonias, *May*, 1466
Fröhlich's syndrome, *Jan.*, 839
Frontal lobe tumor, *March*, 1187
Frost-bite, cancer due to, *May*, 1512
Functional tests of liver in differential diagnosis of jaundice, *Jan.*, 955
Fungus eczema, *May*, 1411
infections, superficial, of skin, *March*, 1169

GALACTOSE tolerance test of liver function, *Jan.*, 959, 960
clinical application, *Jan.*, 960
in diabetics, *Jan.*, 959

Gallbladder disease associated with duodenitis, *Jan.*, 852
Gallop rhythm, *Jan.*, 899
Ganglioneuroma of suprarenal medulla, *July*, 267
Gangrene, arteriosclerotic, embolism of systemic arteries and, differentiation, *Sept.*, 486
Gastral system, *Sept.*, 332
Gastric acidity in duodenitis, *Jan.*, 850
tests of, *Jan.*, 1026
content in diagnosis of carcinoma of stomach, *Nov.*, 557
hemorrhage, control of, *July*, 67
in Banti's syndrome, *July*, 61
lesions, diagnosis of, *March*, 1194
symptoms, functional, with low metabolic rate in constitutional asthenic, *May*, 1381, 1382
ulcer, cancer of stomach and, independent occurrence of, *Jan.*, 869
operation for, pellagra following, *Nov.*, 553
Gastritis, *Jan.*, 1029
in etiology of peptic ulcer, *Sept.*, 338
Gastroduodenitis, *Jan.*, 844
Gastro-enterostomy, secondary ulceration following, roentgenologic signs, *Nov.*, 767
Gastro-intestinal polyposis, *July*, 78
symptoms in hypothyroidism, *Jan.*, 1017
tract, unusual lesions of, *March*, 1191
Gastrojejunal ulcer, postoperative, roentgenologic signs, *Nov.*, 767
Gastropathy, chronic, in Banti's syndrome with severe secondary anemia, *July*, 50
Gastroptosis, *Jan.*, 1039
Gastrotoxin, *Sept.*, 336
Gélineau's syndrome, *Sept.*, 477
Genito-suprarenal syndrome due to malignant tumor of suprarenal cortex, *July*, 269
Genito-urinary diseases, cystoscopy in, imperative need for, *Jan.*, 909
influence of recurrent dental infections on, *Jan.*, 917
Giant cell, Langhans', in tuberculosis, *Sept.*, 280
tumor of bone, benign, differentiation by irradiation, *Nov.*, 632
Gin-drinker's liver, *July*, 92
Girdle type of obesity, *Nov.*, 703
Gland, carotid, tumor of, *July*, 254
Glands of internal secretion in etiology of peptic ulcer, *Sept.*, 343
suprarenal, Addison's disease of, *July*, 187
medulla of, cystic tumor of, *July*, 265
Glandular hypofunction, retarded development due to, *March*, 1259
Glomerulonephritis, acute diffuse, in lobar pneumonia, *May*, 1362
in rheumatic fever, *May*, 1551
chronic, *March*, 1113
diffuse, in subacute bacterial endocarditis, *May*, 1355
Glomus caroticum, struma of, *July*, 254
Glycosuria, renal, 1581
treatment, *May*, 1587
Goiter, colloid, recurrence of, after resection, *July*, 171
exophthalmic, *Sept.*, 382, 384
simple, *Sept.*, 375
treatment, *Sept.*, 377
Gonorrhea, complications in children, *May*, 1387
of rectum, chronic, with liver abscess, *March*, 1207
Gonorrheal arthritis, *May*, 1441, 1443
case report, *May*, 1447
clinical features, *May*, 1444
in childhood, *May*, 1397
treatment, *May*, 1445
immobilization, *May*, 1446
physiotherapy, *May*, 1446
surgery, *May*, 1446
vaccines, *May*, 1445
hydrocele and acute epididymitis in childhood, *May*, 1392
ophthalmia, *May*, 1387
Credé's treatment, *May*, 1390, 1392
stricture of rectum, *March*, 1201
Gowers' vasovagal attack, *Sept.*, 471
Graham Steele murmur, *May*, 1320, 1331
Granules, Muck, in tuberculosis, *Sept.*, 290
Granuloma annulare, *March*, 1146
coccidioidal, systemic blastomycosis and, differentiation, *Nov.*, 659
Graves' disease, *Sept.*, 382
treatment, *Sept.*, 384
with necrosis and atrophy of liver, *July*, 261

HABITUS and temperament, *July*, 161
in peptic ulcer, *Sept.*, 348
pyknic, *July*, 161

Hallucinatory psychosis with terminal bronchopneumonia in alcoholism, *July*, 257
Halometer, Eve's, 35
Hamartoma, *Jan.*, 1014
Hand, apelike, *July*, 111
bacterial infection of, simulating ringworm, *March*, 1173
ringworm of, *March*, 1170, 1172
simian, *July*, 111
Head injury, late conversion hysteria after, *March*, 1294
Headache in constitutional asthenic with low metabolic rate, *May*, 1384
Health examination as aid in synthetic diagnosis, *Sept.*, 439
periodic, *July*, 8
Heart, chronic valvular disease of rheumatic origin, with signs of failure and palpable spleen, *July*, 215
disease, relation of bundle-branch block to, *Jan.*, 885
failure, treatment, *March*, 1139
mitral, configuration of, *March*, 1215
sounds, early diastolic snap, *Jan.*, 904
extra, differential diagnosis, *Jan.*, 906, 907
various types, *Jan.*, 897
first, reduplicated or split, *Jan.*, 897
gallop rhythm, *Jan.*, 899
presystolic, *Jan.*, 902
protodiastolic, *Jan.*, 903
summation form, *Jan.*, 903
heard during systole, *Jan.*, 907
second, reduplicated or split, *Jan.*, 899
third, so-called, *Jan.*, 899
Heat, cancer due to, *May*, 1511
Hematoma of scalp in newborn, *May*, 1524
Hemiplegia in hypopituitary disease, *Jan.*, 835
left, after arteriothrombosis due to operation on neck, *July*, 253
due to cerebral hemorrhage in senile paraparetic patient with arteriosclerosis, *July*, 247
Hemochromatosis, control of diabetes in, *July*, 177
origin of, *July*, 184
Hemolytic jaundice, liver function tests in, *Jan.*, 965
Hemophilia in newborn, *May*, 1528
Hemoptysis, fatal, in pulmonary tuberculosis with cavity formation, *July*, 195
Hemorrhage, cerebral, with hemiplegia in senile paraparetic patient with arteriosclerosis, *July*, 247
gastric, control of, *July*, 67
in Banti's syndrome, *July*, 61
rectal, in secondary anemia with splenomegaly, *July*, 49
Hemorrhagic capillary toxicosis, *Nov.*, 809
disturbances in newborn, *May*, 1523
differential diagnosis, *May*, 1524
Hemorrhagica neonatorum, *May*, 1526
Hepatic vein thrombosis, *Sept.*, 391, 392
Hepharmone, *Jan.*, 941
Hernia, diaphragmatic, *March*, 1123
epigastric, in etiology of peptic ulcer, *Sept.*, 342
Herpes simplex, herpes zoster and, differentiation, *March*, 1145
zoster, *March*, 1143
Hirsutism in carcinoma of suprarenal cortex, *July*, 269
Histamine test of gastric acidity, *Jan.*, 1026
Histoplasmosis, Darling's, *Nov.*, 660
History as aid in synthetic diagnosis, *Sept.*, 449
taking, advances in, *July*, 4
Hodgkin's disease of mediastinum, *Jan.*, 993
Hosts, typhoid, *July*, 26
Hydrocele, gonorrheal, in child, *May*, 1392
Hyperacidity as cause of peptic ulcer, *Sept.*, 329
Hyperergy, *May*, 1563
Hyperinterrenopathy, adult form, with virilism and hirsutism, *July*, 269
Hyperparathyroidism with osteitis fibrosa cystica, *Jan.*, 977
Hypersthenic habitus in peptic ulcer, *Sept.*, 348
Hypertension, arterial, with marked arteriolar hypertrophy rather than arteriosclerosis, *July*, 219
in hypopituitary disease, *Jan.*, 835
right-sided carotid pulsation in, *Jan.*, 989
Hyperthyroidism, recurrence of, after resection of thyroid gland for basedowified colloid struma, *July*, 171
toxic, combined with auricular fibrillation and decompensation, *March*, 1185
Hypofunction, polyglandular, *March*, 1259

Hypopituitary disease with hemiplegia, hypertension, and atypical tolerance curve, *Jan.*, 835
Hypothyroidism, *Sept.*, 379
clinical signs, *May*, 1377
constipation in, *Jan.*, 1021
gastro-intestinal symptoms in, *Jan.*, 1017
treatment, *Sept.*, 380
Hysteria, chronic encephalitis and, differentiation, *July*, 142
conversion, following industrial injury, *March*, 1292
late, after head injury, *March*, 1294
disseminated encephalomyelopathy simulating, *July*, 149
Hysterical dyspnea, *Nov.*, 739

IDIOPATHIC narcolepsy, *Sept.*, 473
Idiosyncratogen in eczema, *May*, 1408
Immobilization in gonorrheal arthritis, *May*, 1446
Immunity to colon bacillus infection, *Jan.*, 863
Indigestion in adults, mesenteric lymphadenitis as cause, *Nov.*, 605
Industrial cancer, *May*, 1507
forms of irritation causing, *May*, 1509
histology, *May*, 1518
localization, *May*, 1508
long interval before onset, *May*, 1508
story of, *May*, 1509
injury, conversion hysteria following, *March*, 1292
fixation neurosis following, *March*, 1283
Infancy, diseases of, object lessons in, *Sept.*, 535
Infant, newborn, hemorrhagic disturbances in, *May*, 1523
Infantile eczema, *May*, 1416
scurvy, *Sept.*, 537
Infarction, cardiac, extensive, with electrocardiographic studies and necropsy findings, *March*, 1097
Infarcts, myocardial, electrocardiographic localization, *Nov.*, 671
Infection, acute, in childhood, *May*, 1475
Bacillus pyocyaneus, *March*, 1243
intestinal, acute bacterial, *May*, 1469
of blood stream, *May*, 1438, 1453
pneumonic, acute bacterial, *May*, 1463
Infectious jaundice, liver function tests in, *Jan.*, 963
Inferior vena cava, obstruction of, *Nov.*, 811
Infiltration, peribronchial, in children, *Sept.*, 411
Inflammation of thyroid gland, *Sept.*, 389
Influenza of abdominal type, *May*, 1470
peribronchial infiltration following, *Sept.*, 415
Influenzal pneumonia, psittacosis and, differentiation, *Jan.*, 820
Inhibition in relation to epilepsy, *Sept.*, 464
Inhibitory epilepsy, *Sept.*, 469
Injury, head, late conversion hysteria after, *March*, 1294
industrial, conversion hysteria following, *March*, 1292
fixation neurosis following, *March*, 1283
Intermittent claudication in extremities with pulsating vessels, *Nov.*, 783
Interstitial pneumonia, *Sept.*, 412
Intestinal bacterial infections, acute, *May*, 1469
diverticula, *March*, 1198
lesions, diagnosis, *March*, 1197
obstruction, *March*, 1083
polyposis, *July*, 77; *March*, 1199
Intramuscular injection of adult whole blood as prophylactic against measles, *May*, 1475
Invalid reaction, chronic, *July*, 156
Irradiation as means of differentiating tumors, *Nov.*, 619
arising in lymphoid structures, *Nov.*, 622
of bone, *Nov.*, 633
benign giant-cell, *Nov.*, 632
of testicles, *Nov.*, 630
Irritation theory of epilepsy, *Sept.*, 466
traumatic, as cause of cancer, *May*, 1510
Ivy poisoning, *May*, 1404

JACKSON'S theory of epilepsy, *Sept.*, 466
Jadassohn's tuberculin test in skin diseases in adults, *May*, 1558
Japanese lacquer as cause of eczema, *May*, 1415
Jaundice, differential diagnosis, liver function tests in, *Jan.*, 955
hemolytic, liver function tests in, *Jan.*, 965

Jaundice, infectious, liver function tests in, *Jan.*, 963
obstructive, liver function tests in, *Jan.*, 961
toxic, liver function tests in, *Jan.*, 963
Jejunal ulcer, postoperative, roentgenologic signs, *Nov.*, 767
Joint aspiration in gonorrheal arthritis, *May*, 1446

KANGRI cancer, *May*, 1509, 1511
Katzenstein's theory of etiology of peptic ulcer, *Sept.*, 334
Kauffmann-Wolff epidermophyton, *May*, 1412
Keratosis pilaris, *March*, 1140, 1141
Kidney, contracted, arterial hypertension with arteriolar hypertrophy with, *July*, 219
disease, chronic vascular form, *July*, 237
double, with pyonephrosis and hydro-ureter in child, *May*, 1485
embryonal adenosarcoma of, in child, *May*, 1494
tuberculosis of, in childhood, *Sept.*, 365
incidence, *Sept.*, 365
pathology, *Sept.*, 367
symptoms, *Sept.*, 368
treatment, *Sept.*, 372
waxy, *Sept.*, 497, 501
Kretschmer's correlation of physical build with psychic disposition, *July*, 161

LACQUER, Japanese, as cause of eczema, *May*, 1415
Laënnec's cirrhosis, *July*, 92
Lagophthalmus, *July*, 113
Landouzy-Déjerine myopathy, *July*, 113
Langhans' giant cell in tuberculosis, *Sept.*, 280
Larynx, diseases of, simulating asthma, *Nov.*, 732
Lateral sclerosis, amyotrophic, *July*, 114, 121
Laurence-Biedl syndrome, *Jan.*, 825
course and treatment, *Jan.*, 832
mental state in, *Jan.*, 833
retinitis pigmentosa in, *Jan.*, 831
Lead therapy in myelogenous leukemia, *Jan.*, 923
combined with *x*-rays, *Jan.*, 924
Leg, bird, *July*, 114
Leukemia, *March*, 1057
aleukemic, *March*, 1062
and leukemic-like conditions, *March*, 1057
lymphatic, *March*, 1065
myelogenous, lead therapy in, *Jan.*, 923
combined with *x*-rays, *Jan.*, 924
splenomyelogenous, *March*, 1059
Leukocytosis, extreme, in pertussis, *March*, 1229
Leukopenia in Banti's syndrome, *July*, 64
Leukosarcomatosis, *March*, 1070
Leyden-Moebius myopathy, *July*, 114
Lichen planus, pityriasis rubra pilaris and, differentiation, *March*, 1139
relation of emotions to, *Nov.*, 646
scrofulosorum, tuberculin test in *May*, 1561
Light, cancer due to, *May*, 1512
Lip, epithelioma of, *March*, 1148
tapir, *July*, 113
Lipoid nephrosis, *Sept.*, 497, 498
Liver, abscess of, in chronic gonorrhea of rectum, *March*, 1207
acute yellow atrophy, with beginning toxic cirrhosis, *July*, 233
cirrhosis of, coarsely nodular, Banti's syndrome and, differentiation, *July*, 103
with ascites, *July*, 99
treatment, *July*, 105
enlargement of, in Banti's syndrome, *July*, 65
estimation of partial function, *July*, 95
in regulation of blood-sugar level, *July*, 94
extract by duodenal tube in Biermer's anemia, *July*, 36
function tests, bromsulphalein, *Jan.*, 957
carbohydrate function, *Jan.*, 958
dye excretion, *July*, 93
for removal of foreign bodies from blood stream, *Jan.*, 957
galactose tolerance, *Jan.*, 959, 960
clinical application, *Jan.*, 960
in diabetes, *Jan.*, 959
in differential diagnosis of jaundice, *Jan.*, 955
in hemolytic jaundice, *Jan.*, 965

Liver function tests in obstructive jaundice, *Jan.*, 961
in toxic or infectious jaundice, *Jan.*, 963
new, *July*, 92
pigmentary function, *Jan.*, 956
rose bengal *July*, 93
gin-drinker's, *July*, 92
necrosis and atrophy of in thyreointoxication, *July*, 261
portal cirrhosis of, *July*, 87
etiology, *July*, 91
treatment, *July*, 96
therapy, *Jan.*, 941
anti-anemic substance, chief components, *Jan.*, 942
distribution in organs other than liver, *Jan.*, 944
natural sources of, *Jan.*, 941
dosage, *Jan.*, 946
effects in anemias similar to pernicious anemia, *Jan.*, 950
in other anemias and diseases, *Jan.*, 951
in pernicious anemia, *Jan.*, 948
on normal humans and animals, *Jan.*, 947
in pernicious anemia, dosage, *Jan.*, 946
effects, *Jan.*, 948
chemical, *Jan.*, 948
clinical, *Jan.*, 950
hematologic, *Jan.*, 949
in secondary anemia, dosage, *Jan.*, 947
methods of administration, *Jan.*, 945
toxic theory of etiology of peptic ulcer, *Sept.*, 336
Lobar pneumonia, acute diffuse glomerulonephritis in, *May*, 1362
acute purulent arthritis in, *May*, 1364
pneumococcus endocarditis in, *May*, 1359
uncommon complications, *May*, 1359
Lumbar pain in tumors of spinal cord presenting difficulty in diagnosis, *Jan.*, 967
Lung, carcinoma of, thymoma and, *Sept.*, 513
diseases of, simulating asthma, *Nov.*, 736
Lupus erythematosus, tuberculous test in, *May*, 1566
miliaris faciei, tuberculin test in, *May*, 1561
Lymphadenitis, mesenteric, in adults, *Nov.*, 605
Lymphatic leukemia, *March*, 1065
Lymphocyte, *Sept.*, 281
Lymphogranulomatosis, tuberculin test in, *May*, 1566
Lymphoid tumors, differentiation by irradiation, *Nov.*, 622

Mah Jong dermatitis, *May*, 1415
Malignant disease of thyroid gland, *Sept.*, 389
tumor, carcinoma of stomach and, coincidence of, *May*, 1533
of bone, differentiation by irradiation, *Nov.*, 633
Malingering, *March*, 1289
fixation neurosis and, differentiation, *March*, 1286
Manic-depressive psychosis, mild form, in patient who has had many operations, *July*, 164
Mann and Williamson on relation of acidity to peptic ulcer, *Sept.*, 331
Marche à petit pas, *July*, 116
Marie's wasp waist, *July*, 114
Measles, intramuscular injection of adult whole blood as prophylactic against, *May*, 1475
peribronchial infiltration following, *Sept.*, 415
Mechanical theory of peptic ulcer, *Sept.*, 339
Mediastinum, anatomy of, *Jan.*, 1002
anterior, teratoma of, probably thymic in origin, *Jan.*, 1008
Hodgkin's disease of, *Jan.*, 993
pressure in, anatomical considerations, *Jan.*, 999
effects of, *Jan.*, 999
lesions causing, *Jan.*, 1000
symptoms, *Jan.*, 1003
tumors of, causing pressure, *Jan.*, 1000
Medulla of suprarenal gland, cystic tumor of, *July*, 265
occurrence of tumors in, *July*, 267
Megalocytosis, grade of, Adler's method for determining, *July*, 34
Pijper's diffraction method, *July*, 34
Eve's modification, *July*, 35
Melanotic pigmentation of skin and mucous membrane with low blood pressure and gastro-intestinal disturbances, *July*, 187
Meningitis in infancy, *Sept.*, 542
Meningococcic infection, *Sept.*, 301

Meningococcic infection, serum treatment, *Sept.*, 303
Mental deficiency associated with adiposity, retinitis pigmentosa, and polydactylism, *Jan.*, 825
state in Laurence-Biedl syndrome, *Jan.*, 833
Mercurochrome in treatment of streptococcic septicemia, *May*, 1436
Mesenteric cyst with pressure on renal pelvis in child, *May*, 1489
lymphadenitis in adults, *Nov.*, 605
Metabolism, basal, low, in constitutional asthenics, without hypothyroidism, *May*, 1377
normal, in early thyrotoxicosis, *March*, 1277
Miliary tuberculosis, general, and pulmonary tuberculosis in infant, *July*, 207
typhoid fever and, differentiation, *July*, 20
Mitral configuration of heart, *March*, 1215
stenosis, *May*, 1311
buttonhole, *May*, 1311, 1324
clinical variations, *May*, 1313
coexisting pathologic changes in valve, *May*, 1317
development of decompensation, *May*, 1321
Duroziez murmur in, *May*, 1317
negative Valsalva experiment in, *May*, 1315
roentgenographic findings of heart in, *May*, 1315
subjective symptoms, *May*, 1318
M/L index in tuberculosis, *Sept.*, 284, 285
Mobile cecum, *Jan.*, 1039
Monocyte, *Sept.*, 281
Muck granules in tuberculosis, *Sept.*, 290
Muirhead treatment of Addison's disease, *July*, 192
Mule-spinners' cancer, *May*, 1516
Multiple sclerosis, chronic encephalitis and, differentiation, *July*, 143
Murmur, Duroziez, in mitral stenosis, *May*, 1317
Graham Steele, *May*, 1320, 1331
Muscular atrophy, progressive, bulbar form, *July*, 114
muscular dystrophy and, differentiation, *July*, 110
neural form, *July*, 115
pathogenesis, *July*, 122
spastic form, *July*, 114
phenomena in, *July*, 112
treatment, *July*, 124
Muscular dystrophy, progressive, classification, *July*, 112, 114
facioscapulohumeral type, *July*, 113
muscular atrophy and, differentiation, *July*, 110
pathogenesis, *July*, 122
spinal form, *July*, 114
treatment, *July*, 124
wasting, progressive, *July*, 109
classification of diseases accompanied by, *July*, 109
pathogenesis, *July*, 122
treatment, *July*, 124
Musculature of stomach in relation to peptic ulcer, *Sept.*, 357
Mycosis fungoides, tuberculin test in, *May*, 1566
Myelogenous leukemia, lead therapy in, *Jan.*, 923
combined with *x*-rays, *Jan.*, 924
Myocardial cases, *Sept.*, 307
infarcts, electrocardiographic localization, *Nov.*, 671
Myoclonic epilepsy, *Sept.*, 468
